

MPA Furlough Plan for Fall 2009

This also includes vacation days

Reduced funding from the California legislature and governor has necessitated a furlough program (time and pay cut) for San Francisco State University. A furlough day is a day on which an employee is normally scheduled to work, or is in pay status, that is taken as an unpaid day off.

On furlough days, faculty will be unavailable by phone, e-mail or office visit and will cancel class.
